NBG Pay, National Bank of Greece and EPSILON NET Group launch All-in-One & Digital Cash Flow solutions

NBG Pay and EPSILON NET Group announce the launch of their cooperation, with the support of National Bank of Greece, for the provision of integrated proposals in the field of acquiring business, with a focus on All-in-One and e-commerce solutions.

The first solution, EPSILON ALL in ONE (PAX edition), aims at meeting the needs of SMEs and freelancers, and includes:

- Epsilon Smart, a cloud application for electronic invoicing and commercial monitoring,
- the services of Epsilon Digital, certified electronic invoicing provider,
- PAX 920 Pro POS device with android operating system,
- respective interface, activation and support services

EPSILON ALL in ONE enables the end user to invoice, collect and issue receipts from a single device and in 3 simple steps.

Under this solution the company enters into agreement with NBG Pay to accept transactions with payment cards (acquiring business contract). The customer onboarding process in the acquiring business contract and NBG Pay's systems is carried out with the assistance of NBG and its digital infrastructure and branch network.

NBG Pay has already completed its first successful year of operations, offering innovative fintech solutions for businesses. It invests in strategic partnerships, aiming at the step by step development of integrated products and services for businesses, providing secure payment solutions, speed and flexibility.

The strategic agreement with the rapidly growing EPSILON NET Group aims to further strengthen and support SMEs in Greece, creating an even wider range of innovative solutions in the field of payments.

A few words about Epsilon Net Group
