## **General Information**

As regards the terms and conditions governing payments, customers are duly informed by means of the "Single Deposit & related Transaction Relations Agreement", according to which, when opening a demand deposit account, customers accept, inter alia, the terms of the framework agreement for payment services, which is governed by Law 4537/2018 (Government Gazette 84/15-5-2018).

- Interest is posted on 30 June and on 31 December of each year.
- The balance available each day represents the funds (whether the total balance or a part thereof) whose value date, set as a result of any credit/debit entry or hold, has lapsed on the same day. The value date, in the case of withdrawals, is the date on which the amount withdrawn ceases to be part of the balance and, in the case of deposits, the date on which the funds become available and, in the case of interest-bearing accounts, interest starts accruing.
- Interest rates on deposit accounts are stepped, i.e. the deposit account balance, as it stands from time to time, is divided into portions, and the interest posted on the account balance is calculated for each portion separately on the basis of the above interest rate scale. Interest is calculated on the balance available on each day and the respective rate applies to the corresponding portion of the balance.
- Interest is calculated on an actual/360 day basis, i.e. the actual days of the year are the numerator while the commercial year of 360 days is the denominator.
- Tax is withheld from the interest payable to the account beneficiary in favour of the Greek State. The tax rate depends on the relevant tax law applicable from time to time (currently 15%).
- You will be informed as soon as possible of any interest rate change in general, through notices displayed to that effect at NBG branches, NBG press releases or the Bank's website [www.nbg.gr]. Rate changes, however, that are favourable to you may apply without notification.
- Exchange rates are available through the Bank's branches and website (www.nbg.gr) and the daily press. Exchange rate changes may apply immediately without notification.
- If payroll funds are not credited to the account for a time period longer than six months, then the account shall be automatically converted to a "Value" current or savings account, as the case may be.
- NBG's current Rates and Charges are available in the Bank's branches and can be viewed under the relevant heading on its website (www.nbg.gr)
